

TRUE SINGLE UNION BALL VALVES

TSU-T (threaded) SERIES

MADE IN
NORTH AMERICA

PRODUCTS

Size:	1/2" - 1"
Material:	Grade 1 PVC
	Colour Grey or White
O-RINGS:	EPDM
Ball Seats:	Polyethylene
Pressure Rating:	200 psi
Schedule:	80 bore

Praher's unique spanner wrench handle provides for easy valve seat servicing - just pull handle off ball stem & use as a tool (see picture).

Praher's unique threaded true single union ball valve design provides for:

- user friendly handle operation - union nut load does not transfer onto ball seat, thereby providing user with easy handle operation even if valve not operated for a long period of time.
- below grade - blocked seat flooded suction design - valve seat will not blow out from static pressure if union nut removed.

FEATURE:

- Handle can be used as tool to adjust threaded seal carrier.
